

KEY FEATURES AND BENEFITS

FEATURES	BENEFITS
Dual 400G Ethernet Retimer, Quad 200G PHY/Retimer	<ul style="list-style-type: none"> Enables the new high density QSFP-DD and OSFP form factors targeted to 400GbE applications in datacenters
16 port 50GbE, 25GbE, 10GbE, 1GbE PHY/Retimer	<ul style="list-style-type: none"> Ideal for high density Top of Rack switches supporting 50G/25G connectivity to servers
Quad 100GbE Gearbox for translation from 802.3bj 4x25G NRZ to 802.3cd 2x50G PAM4	<ul style="list-style-type: none"> Enables support of 4x25G optics from switch ASICs with 2x50G PAM4 I/Os. Also enables support of new 50G optics with older switch ASICs
Low latency 16 channel transparent retiming functionality in PAM4 and NRZ modes	<ul style="list-style-type: none"> For low latency retiming applications
Long Reach Host and Line interface serdes	<ul style="list-style-type: none"> For driving passive Direct Attach Copper (DAC) cables, and backplanes
Fully symmetric architecture with FEC capability on host and line interfaces	<ul style="list-style-type: none"> Flexibility to support wide range of applications and system design choices
Support for IEEE Auto-negotiation and Training protocol	<ul style="list-style-type: none"> Seamless interoperability with standards compliant devices from other vendors
Ethernet Packet and PRBS generation capabilities, and eye monitoring capability on all high speed interfaces	<ul style="list-style-type: none"> Comprehensive debug capabilities

TARGET APPLICATIONS

- 100G, 50G, 25G Top of Rack Datacenter switches
- 400G and 200G Ethernet line cards

ABOUT MARVELL: Marvell first revolutionized the digital storage industry by moving information at speeds never thought possible. Today, that same breakthrough innovation remains at the heart of the company's storage, networking, and connectivity solutions. With leading intellectual property and deep system-level knowledge, Marvell's semiconductor solutions continue to transform the enterprise, cloud, automotive, industrial, and consumer markets. For more information, visit www.marvell.com.
